

CGX CONNECT

Montel Civil Engineering has been engaged by **Gloucestershire Airport** as Principal Contractor to undertake the infrastructure works to enable the development of **CGX Connect - the new business park**. (Works will be undertaken within the red area of the above image)

We are committed to keeping the local community up-to-date of the progress of the works and will provide advance notice of any changes associated with road use as we progresses. We will write directly to those individuals, businesses and organisations living or operating from properties in immediate vicinity of the site to provide updates; and will continue to keep everyone updated throughout the project. We will also make use of social media channels to communicate information and, if required, would welcome meetings with people directly to discuss any concerns they have/or provide additional information.

We endeavour to keep local residents and businesses informed with up-to-date information on issues that may affect them. Equally, we would encourage and welcome individuals contacting us directly in the event of any issues arising which give them cause for concern via the contact details below.

Throughout our time on the site there will be another contractor undertaking work on the main runway. This refurbishment work is being carried out separately and is not associated with the work being undertaken by Montel.

What is happening and when...

Montel will take possession of the site by the end of October, and it is anticipated that the works will be completed by the end of spring of 2022

Within the first week you will see the site being set up and fences erected to ensure the safety of the public. When this has been completed, the infrastructure works will start.

This work involves:

- Formation of an entrance to the business park
- Road construction
- Services diversions
- Associated drainage

Montel Civil Engineering - how to get in touch...

At Montel we have a dedicated Community Relations team to assist local residents with any queries and concerns on all projects we undertake. For this project the point of contact will be Sophie Pierre, who can be contacted via the email below.

- Sophie.Pierre@montel-group.com

We also have a dedicated 24 hour helpline

- **07795 415752 - Dedicated 24 Hour Phonenumber**

In addition to writing directly to local residents and business to keep them informed on the progress of the works, a dedicated project webpage and our Twitter page will also be regularly updated with progress reports, including images and information on possible disruption to roads.
