A435 Cheltenham to Bishop's Cleeve Cycleway: Section 2 Phase 1

Revised date of overnight road closure between Hyde Lane junction & Bishop's Cleeve roundabout

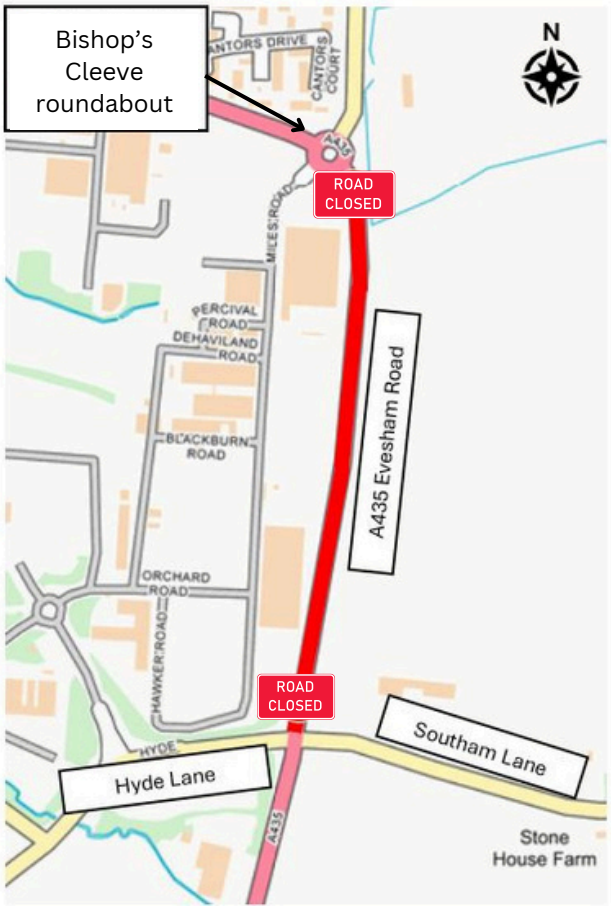
The schedule for overnight road closures on the A435 Evesham Road between Hyde Lane junction and Bishop's Cleeve roundabout has now changed. The revised road closures will now take place on the following dates:

From Tuesday 21st January for 3 nights between 8pm and 6am, until 6am on Friday 24th January.

During the overnight works, we will be removing the existing road markings and installing new road markings in the carriageway along the southern lane of the Evesham Road.

A diversion route will be in place and we ask that diversionary signage is followed.

The change in dates is due to the rescheduling of surfacing works related to the land stabilisation works on the A435 Evesham Road. This adjustment is intended to reduce the impact on the local community as much as possible.



Additional road closures:

These night works/road closure will follow the scheduled road closure of the A435 Evesham Road between Racecourse Roundabout and Hyde Lane junction on **Monday 20th January** between **8pm and 6am**. This relates to the A435 Evesham Road Land Stabilisation Works and involves resurfacing the carriageway.

Please note that the previously announced closure of the **Wellington Road junction/A435 Evesham Road** will proceed as planned on **Monday 13th January**, between 8pm and 6am. For the remainder of the week, 4-way temporary traffic signals will be in place during night-time hours (excluding the weekend).

As details on road closures can be subject to change last minute, this will be communicated via social media (Gloucestershire County Council and Montel's) and through emailing our mailing list. If you'd like to be added to the mailing list, please email Suzanne at **suzanne.wright@montel-group.com** as soon as possible.
